Biomechanics and Medicine in Swimming X

Vilas-Boas, J.P., Alves, F. and Marques, A. (Eds.)

Table of content (in order of appearance)

Author	Title	Pages
Clarys, J. P.	MEMORIAM Prof. Dr. León Lewillie	9
Arellano, R.	Fundamental hydrodynamics of swimming propulsion	15
Sanders, R., Psycharakis, S., McCabe, C., Naemi, R., Co C., Li, S., Scott, G. and Spence, A.	Analysis of swimming technique: State of the art: Applications and implications	20
Aujouannet, Y.A., Rouard, A.H. and Bonifazi, M	Effects of fatigue on the kinematic hands symmetry in freestyle.	24
Castro, F. and Guimarães, A.C.	Front crawl kinematics: breathing and pace acute effects	26
Caty, V., Rouard, A.H., Hintzy, F., Aujouannet, Y.A., Mo and Knaflitz, M.	Time-frequency parameters of wrist muscles EMG after an exhaustive freestyle test	28
Chollet, D., Carter, M. and Seifert, L	Effect of technical mistakes on arm coordination in backstroke	30
Craig, A.B., Termin, B. and Pendergast, D. R.	Simultaneous recordings of velocity and video during swimming	32
Gavilán, A., Arellano, R. and Sanders, R.	Underwater undulatory swimming: Study of frequency, amplitude and phase characteristics of the 'body wave'	35
Hohmann, A., Fehr, U., Kirsten, R. and Krüger, T.	EMG-model of the backstroke start technique	37
Homma, Ma. and Homma, Mi.	Three-dimensional analysis of the eggbeater kick in synchronised swimming	40
Houel, N., Taiar, R., Huot-Marchand, F., Lionel-Rey, J., B E., Lecat, S., Quièvre, J. and Hellard, P.	Inverse dynamic modelling of swimmers impulse during a grab start	42
Hubert, M., Silveira, G.A., Freitas, E., Pereira, S. and Roes Ito, S.	Speed variation analysis before and after the beginning of the stroke in swimming starts	44
Ito, S.	Fundamental fluid dynamic research on configuration of the hand palm in synchronized swimming	45
Juntunen, P., Leskinen, T., Louhevaara, V. and Keskinen, Kamata, E., Miwa, T., Matsuuchi, K., Shintani, H. and Nom	Biomechanics of towing in skilled and less-skilled life-savers	48
Kamata, E., Miwa, T., Matsuuchi, K., Shintani, H. and Nom	Analysis of sculling propulsion mechanism using two-components particle image velocimetry.	50
Kjendlie, P.-L., Haljand, R., Fjørtoft, O. and Stallman, R.K.	Stroke frequency strategies of international and national swimmers in 100m races	52
Kjendlie, P.-L., Haljand, R., Fjørtoft, O. and Stallman, R.K.	The temporal distribution of race elements in elite swimmers	54
Klauck, J., Daniel, K. and Bayat, M.	Goalkeeper's eggbeater kick in waterpolo: kinematics, dynamics and muscular coordination	56
Krüger, T., Hohmann, A., Kirsten, R. and Wick, D.	Kinematics and dynamics of the backstroke start technique	58
Matsuuchi, K., Hashizume, T., Nakazawa, Y., Nom Shintani, H. and Miwa, T.	Flow visualization of unsteady flow field around a monofin using PIV.	60
Minghelli, F. and Castro, F.	Kinematics parameters of crawl stroke sprinting through a training season	62
Miwa, T., Matsuuchi, K., Shintani, H., Kamata, E. and Nom	Unsteady flow measurement of dolphin kicking wake in sagittal plane using 2C-PIV	64
Nakashima, M.	"Swum" and "Swumsuit" - A modeling technique of a self-propelled swimmer.	66
Ohgi, Y.	Pattern matching application for the swimming stroke recognition	68
Osborough, C. and Peyrebrune, M.	The influence of repeated sprinting on the kinematics of butterfly swimming	70
Payton, C. and Wilcox, C.	Intra-cycle speed fluctuations of uni-lateral arm amputee front crawl swimmers	73
Pedersen, T. and Kjendlie, P.-L.	The effect of the breathing action on velocity in front crawl swimming	75
Pereira, S.M., Araújo, L., Freitas, E., Gatti, R., Silveira, C Roesler, H.	Biomechanical analysis of the turn in front crawl swimming	77
Pereira, S.M., Ruschel, C. and Araújo, L.G.	Biomechanical analysis of the underwater phase in swimming starts	79
Pérez, P., Llana, S. and Zahonero, J.	Race pace control by means of a new chronometer system	81
Prins, J.H. and Patz, A.	The influence of tuck index, depth of foot plant and wall contact time on the velocity of push-off in the freestyle turn	82

Rejman, M.	Influencing of timing delay on monofin intracycle swimming velocity	85
Schnitzler, C., Ernwein, V., Seifert, L and Chollet, D.	Intracyclic velocity signal as a tool to evaluate propulsive phase action	88
Seifert, L., Payen, V., Vantorre, J. and Chollet, D.	The breaststroke start in expert swimmers: a kinematical and coordinative study	90
Seifert, L., Schnitzler, C., Aujouannet, Y.A., Carter, M., A.H. and Chollet, D.	Comparison of subjective and objective methods of determination of stroke phases to analyse arm coordinative front-crawl.	92
Pretto, L., Castro, F. and Oliveira, A. de	Assisted velocity swimming training in two and six beats age group front crawl swimmers	94
Soultanakis, H. and Platanou, T.	The impact of velocity on pull and recovery times and average pull force in freestyle swimming	95
Stirn, I. and Strojnik, V.	Throwing with different kinetic chains	98
Sugimoto, S., Nakashima, M., Ichikawa, H. and Nomura, T.	Estimation of thrusts generated by each body part during underwater dolphin kick using "Swum".	100
Takeda, T. and Nomura, T.	What are the differences between grab and track start?	102
Tella, V., Llop, F., Jordà, J., Madera, J. and Benavent, J.	Intracyclic speed and coordination vs fatigue in swimming	105
Thanapoulos, V., Dopsaj, M. and Nikolopoulos, A.	The relationship of anthropomorphological characteristics of crawl sprint swimmers of both genders with critical speed at 50 and 100 m.	107
Ungerechts, B.E. and Klauck, J.	Consequences of unsteady flow effects for functional attribution of swimming strokes	109
Yamada, K., Matsuchi, K., Nomura, T., Sakakibara, J., H. and Miwa, T.	Motion analysis of front crawl swimmer's hands and the visualization of flow fields using PIV	111
Ogita, F.	Energetics in competitive swimming and its application for training	117
Dekerle, J., Brickley, G., Sidney, M. and Pelayo, P.	Application of the critical power concept in swimming?	121
Dopsaj, M. and Thanapoulos, V.	The structure of evaluation indicators of vertical work ability of top water polo players.	124
Dunman, N., Morris, J., Nevill, M. and Peyrebrune, M.	Characteristics for success in elite junior and senior swimmers	126
Fernandes, R., Cardoso, C., Silva, J.A., Vilar, S., Col Barboza, T.M., Keskinen, K.L. and Vilas-Boas, J.P.	Assessment of the time limit at lowest speed corresponding to maximal oxygen consumption in the four competitive swimming strokes	128
